de consecratione Fraternitatis Sacerdotalis

Ab rege Elevediae, unus peccator miserabilis, de consecratione Fraternitatis Sacerdotalis Sancti Pii X:-

If We have released this message, it means that the SSPX has gone forward with the consecrations that they have declared will happen. We have followed this situation as closely as possible, and it saddens us greatly. At the time of writing, there are only three hours left until the beginning of the live-stream from Écône. We feel that there is very much to be done now.

The SSPX has been planning the consecrations publicly since February, and they have constantly asked His Holiness to approve of the consecrations. Whether a state of emergency is clear or not, We are not sure. It is not up to Us to know, but from our position, it appeared that throughout these months, both the SSPX and the Vatican have been unable to work together.

The position of Eleuedla stays firmly with the Vatican, to Holy Mother Church, and to the Tradition as passed down by the Holy Apostles and the Saints. While We hold to the political theories and worship of the Pre-Conciliar Church, schism is never justified.

Miserere nobis, Domine. We hope that the schism be resolved.

Habeo subscriptus in Christo,
